

## Board and box assembly instructions

### Materials:

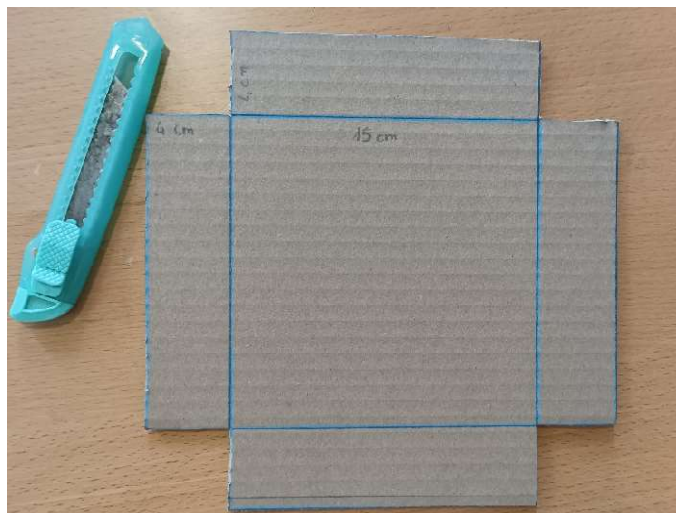

- Cardboard
- Adhesive plastic film
- Scissors /cutter
- Ruler
- Double-sided tape
- N°4 padlocks with 4-digit combination
- N°8 brackets
- N°1 envelope
- File with icons and doormat image
- File "Giulia's letter"

### COVERS OF THE BOXES

- 1) Draw on the cardboard a square of 19 cm as in the figure.

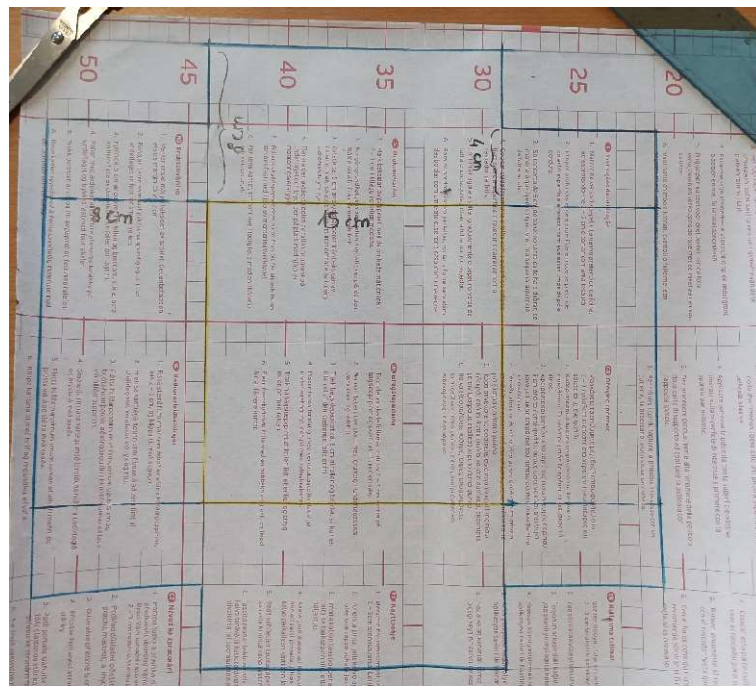

- 2) Cut out the shape with a cutter.

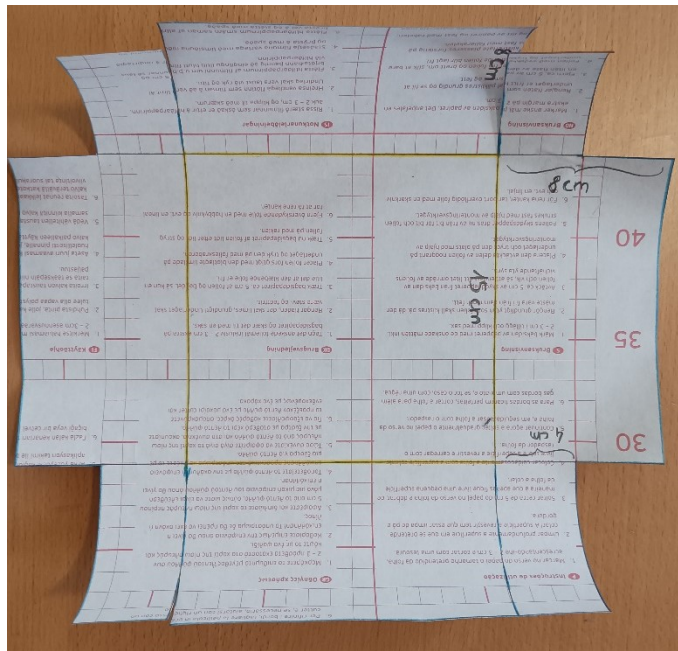

3) Fold the edges of the cover.

4) On the roll of adhesive plastic tape, draw the shape as in the figure. The yellow lines limit the central square of the cover; while the blue lines limit the edges. The dotted lines indicate where to cut.

5) Cut out the shape with scissors along the blue continuous line and along the dotted line.

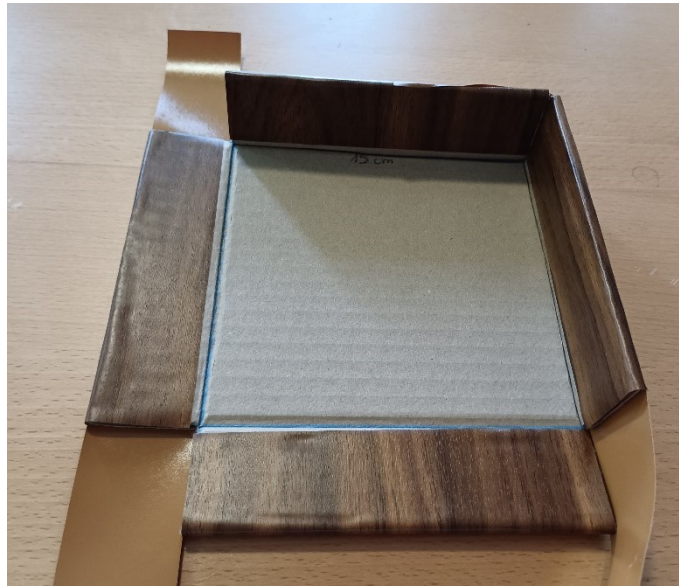

- 6) Remove the protective paper and place the cardboard cover on the adhesive film.

- 7) Fold the adhesive paper inwards to coat the edges of the cover.

8) Lift the edges and attach them to each other with adhesive plastic flaps.

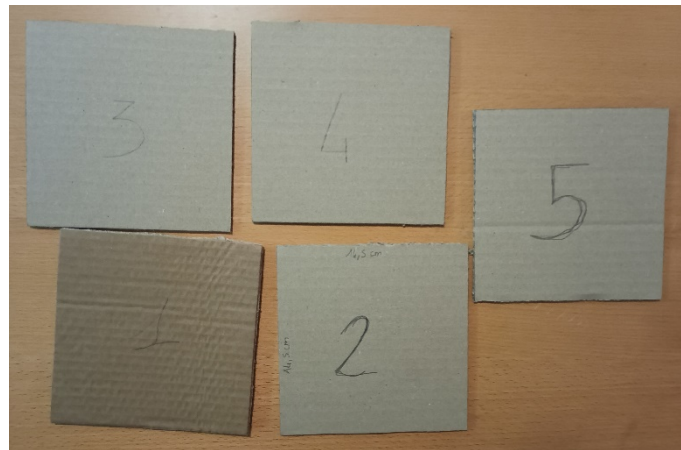

Repeat other three times so as to create four covers.

**N.B. →** Above the cover of box 1 (entrance) glue an envelope and insert the letter written by the protagonist of the story (Giulia) which contains the first enigma (file: "Giulia's letter"). Cover the envelope with the doormat illustration.

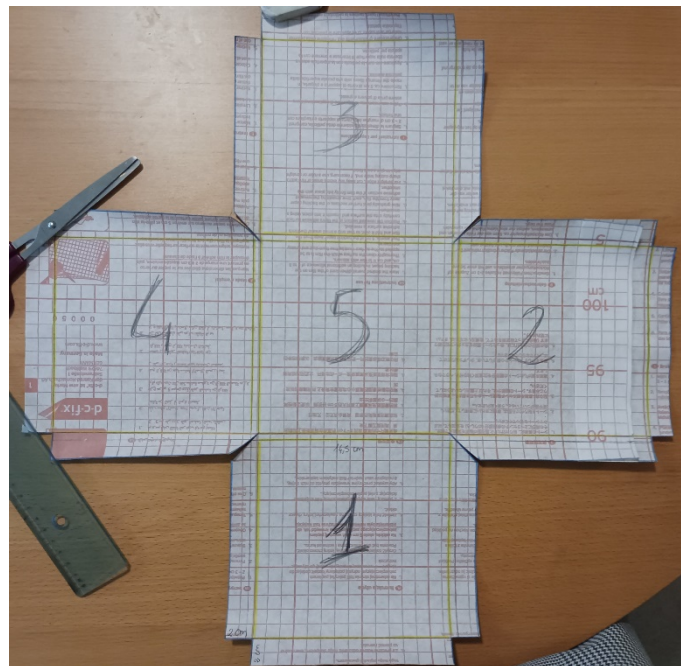

### **BOXES**

1) Cut 5 squares of cardboard of 14.5cm X 14.5cm.

2) On the adhesive plastic film, draw the shape as in the figure:

- place the 5 squares of cardboard to form a cross;
- between one square and another leave 0.5cm;
- around each square draw flaps of 2cm that will be used to cover the edges.

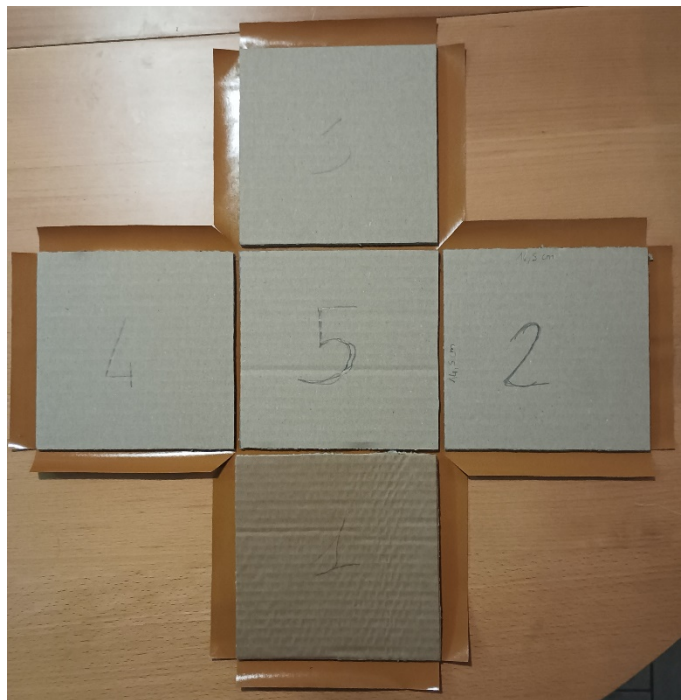

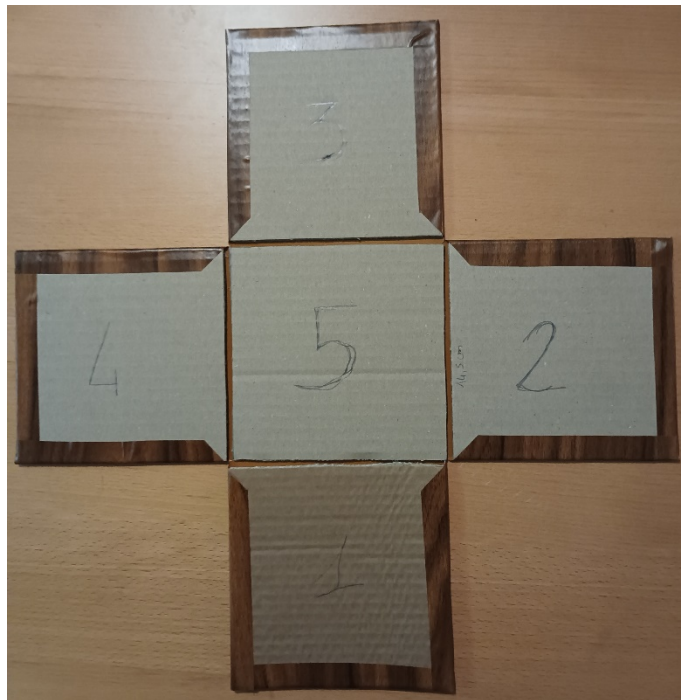

- 3) On the adhesive plastic draw and cut out 4 strips of 14.5cm X 3cm.

- 4) Remove the protective paper of the adhesive film and place the 5 squares of cardboard. Be careful to leave 0.5cm between one square and another.

5) Fold the flaps along the edges.

6) Join each outer square to the central one with the adhesive plastic strips.

- 7) Lift the walls and close the box with the lid.

Repeat three more times so as to create 4 boxes.

### **CLOSING THE BOXES**

- 1) With double-sided tape, attach a bracket on the edge of the cover and another bracket on the wall of the box.

2) Insert the padlocks with the following codes (see the padlock instructions to set the combination)

Box 1 – entrance & living room: **9362**

Box 2 – kitchen: **3250**

Box 3 – bedroom&bathroom: **9418**

Box 4 – garage: **7263**

After having assembled the game on the boxes, all the boxes together create a board of a unique flat!
