Hey!

I didn't forget about your arrival, but I thought of making your holiday even more funny! As you will have understood, I am not at home, I have hidden myself and it is up to you to find me. You may be wondering how to do it. Calm down! I've thought of everything. I have prepared some riddles for you to solve. Every time you find the correct solution, you will be closer and closer to my hiding place. In every room, I have left around some clues for you that will help you move forward. Whenever you need some help you can use the address book inside the box. Every time you enter a new room, if you shouldn't know where to start from, follow the red arrow. You just have to enter the house and start playing!

You may be wondering how to get in, since the door is closed. It's easy: exactly in this letter there's the access key!

Ah, I forgot! I'm really curious to see how long it will take you to find me. Write down the exact time and check it back again once you'll have found me! Let the adventure begin!

See you later,

Giulia
